MINISTRY OF EDUCATION AND SCIENCE OF UKRAINE

Sumy National Agrarian University Occupational Safety and Physics Department Engineering and Technology Faculty

MODULE SYLLABUS <u>Time Management</u>

Implemented in the *«Agricultural Engineering»* Academic Program Area of specialization 208 *«Agricultural Engineering»* at the second (master's) level of higher education

Author: Fely	(Khvorost T., Ph.D., Associate Professor)
Module syllabus agreed at the Occupational Safety and Physics Department	Minutes No 10 dated June 5 2023
Meeting	Head of Department (S.M. Khursenko)
Approved by: Guarantor of the Academic p	program Joley Khvorost T.
Dean of the Faculty	<u>ВЗ/</u> (підпис) Zubko V.
Syllabus review (attached) is	sprovided by: <u>Mich-(Mikulina M.)</u>
Representative of the Depart licensing and accreditation	tment of Education Quality assurance, <u>H. Barn</u> (N. Baranik)
Registered in electronic data	base 11. 092023 p.

1. MODULE OVERVIEW

1.	Title	Time Management				
2.	Faculty/Department	Engineering and Technology Faculty/ Occupational Safety and Physics				
			Department			
3.	Туре	selective				
4.	Level of the National Qualifications Framework	7				
5.	Semester and duration of module	2 semester,	weeks			
6.	ECTS credits number	5				
7.	Total workload and	Dire	ected study		Self-directed study	
	time allotment	Lectures	Practicals	Labs	J.	
		30	30	_	90	
8.	Language of instruction	English		11		
9.	Module leader	Khvorost T	.V.			
10.	Module leader contact information	L .		nysics Department, 	, and the auditorium of the	
11.	Module description	The focus in the educational component is on the study and assimilation of techniques and techniques of time management, which allow to protect precious time, to distribute it more rationally and so that it is faster to achieve their goals.				
12.	Module aim	The purpose of the educational component is the formation of systematic knowledge and practical skills of effective planning of time at personal and corporate levels, as well as mastering methods and rules of achieving personal efficiency by self -motivation and Placeing priorities.				
13.	Module Dependencies	is based on studied disciplines: Communications in the international environment. The component is the basis for Management, marketing and intellectual property, Reasoning of engineering and technological solutions				
14.	The policy of academic integrity	Adherence to academic integrity in the course is based on the intra-university system of prevention and detection of academic plagiarism. The main requirements for the course include - links to sources of information in the case of the use of ideas, developments, statements, information; providing reliable information about the results of their own educational (scientific, creative) activities, used research methods and sources of information. Verification of texts for uniqueness is carried out by the same means for all applicants.				
15.	Link in Moodle	https://cdn.snau.edu.ua/moodle/course/view.php?id=4728				

2. CORRELATION BETWEEN MODULE LEARNING OUTCOMES (MLOs) AND PROGRAM LEARNING OUTCOMES (PLOs)

MLOs: On successful completion of the module the learner will be able to:	PLOs PLOs	How assessed
MLOs 1. Use the methods of setting goals		Practical work
MLOs 2. Develop long -term, short - term and plans for the day		Discussion, group work
MLOs 3. Apply the methods and tools of time planning and its control at personal, team and corporate levels		Survey/ Testing on the topics worked out
MLOs 4. Allocate resources for effective self -organization		Intermediate control
MLOs 5. Use your own time planning technologies, current day planning principles		Practical work, designing a glider layout
MLOs 6 Distribute resources for efficient self -motivation		Survey/ Testing on the topics worked out
MLOs 7. Apply methods and methods of setting priorities for importance and urgency.		Practical work
MLOs 8. Use the skills of organizing work and implementing management decisions, effectively distributing time at a corporate level		Discussion, group work

3. MODULE INDICATIVE CONTENT

	Distrib	ution of	hours	
Topics		Directed study Self-		
		Pract.	directed study	resources
 Topic 1. Fundamentals of Time Management 1. Time Management as a system. 2. Proactive and reactive approaches to life. 3. Values as the basis of goal setting. 4. Entires and key areas of life. 5. Approaches to defining goals. Life Management and life goals 	2	2	13	[1, 2, 7, 9]
 Topic 2. Timing as a personal time accounting system 1. Time as a non -renewable resource. 2. Time absorbers. Ways to minimize inefficient use of time 3. Chronometer as a system of accounting and control of time spending. 1. 4. Analysis of own efficiency. Classification of time spent. 	4	4	11	[2, 4, 7, 10, 11]
 Topic 3. Planning 1. Definition of concepts, tasks. 2. Contextual planning. 3. Long -term planning. 4. Planning of the day. Structured attention and planning horizons. 1. 5. Planning system based on the method of structured attention. 	4	4	11	[1, 2, 8, 12]
 Topic 4. Inspection of tasks and its role in decision making 1. The essence of inspection of tasks in time management. Basic concepts and definitions. 2. Tools to create inspection. 3. Two-dimensional graphics as a tool for planning and control in time management. 4. Main Management. 	4	4	11	[1, 2, 3, 9, 8]
 Topic 5. Priorities. Optimization of time spent. 1. Definition and essence of priority placement in time management. 2. Basic ways and methods of setting priorities in time management. Eisenhower matrix as a tool for setting priorities. Priority criteria. Multicriteria evaluation method 3. Determining the priority of long -term goals 4. Determining the priority of current tasks 5. Pareto law. Use 2 Principal 80/20 when organizing personal time planning. Stages of using the Pareto principle 6. Getting rid of imposed urgency and importance. Defense strategies. Defense strategies 7. ABC-chronicle. Priority of tasks at the time accounting stage. Fixing attention on the main tasks. Measurement and clarity of results activity. 	4	4	11	[1, 2, 5, 6]

1. A competent distribution of workload as a basis for success and efficient work. 9, 2. Human performance and biorhythms. The impact of daily rhythms on the distribution of working load. 9, 3. Rules for organizing an effective rest. 8 Rules of effective rest of the experience. 4. 4. Effective sleep. 5. 5. How to adjust yourself to solving problems: methods and methods of self -launch. 9, Steps to set an "anchor" 6. 6. Creative laziness. Rules of creative laziness 7. 7. Self -motivation as an effective solution to great time - consuming tasks. 9, 8. Solution of small unpleasant tasks. A way to solve small unpleasant cases. Control over the execution of by the help of "daily affairs tables" 4 7. Derequisites and Definition of Corporate Time Management 4 3. Time Management in the Corporate University Program 4 4. Corporate TM Standard 7M regulations and command arrangements. Planning rules in diary. "Things" as carriers of corporate standards	, 2, 4,
and efficient work. 2. Human performance and biorhythms. The impact of daily rhythms on the distribution of working load. 3. Rules for organizing an effective rest. Rules of effective rest of the experience. 4. Effective sleep. 5. How to adjust yourself to solving problems: methods and methods of self -launch. 5 Steps to set an "anchor" 6. Creative laziness. 7. Self -motivation as an effective solution to great time - consuming tasks. 8. Solution of small unpleasant tasks. A way to solve small unpleasant cases. Control over the execution of by the help of "daily affairs tables" Topic 7. Corporate time management 4 4 11 91 2. Prerequisites and Definition of Corporate Time Management 91 91 91 3. Time Management in the Corporate University Program 4 4 11 91 4. Things" as carriers of corporate standards 91 91 91 91 Topic 8. Computerization of time management 4 4 11 91 9. Paicement of priorities. 3. Setting up the calendar display with the task panel. Thin ways of installing reminders. 15 15 9. Paicement of priorities. 3. Setting up a submission user. Auto formatting rules. Autoformat 15 15 9. Co	, 2, 4, 13, 15
2. Human performance and biorhythms. The impact of daily rhythms on the distribution of working load. 3. Rules for organizing an effective rest. Rules of effective rest of the experience. 4. Effective sleep. 5. How to adjust yourself to solving problems: methods and methods of self -launch. Steps to set an "anchor" 6. Creative laziness. Rules of creative laziness 7. Self -motivation as an effective solution to great time - consuming tasks. 8. Solution of small unpleasant tasks. A way to solve small unpleasant cases. Control over the execution of by the help of "daily affairs tables" Topic 7. Corporate time management 1. The need for corporate introduction of time management 2. Prerequisites and Definition of Corporate Time Management 3. Time Management in the Corporate University Program 4. Corporate TM Standard TM regulations and command arrangements. Planning rules in diary. "Things" as carriers of corporate standards Topic 8. Computerization of time management 1. Flexible and rigid planning in MS Outlook. Setting up the calendar display with the task panel. Thin ways of installing reminders. 2. Placement of priorities. 3. Setting up a submission user. Auto formatting rules. Autoformat 4. Convenient grouping of	10, 10
rhythms on the distribution of working load. 3. Rules for organizing an effective rest. Rules of effective rest of the experience. 4. Effective sleep. 5. How to adjust yourself to solving problems: methods and methods of self -launch. Steps to set an "anchor" 6. Creative laziness. Rules of creative laziness 7. Self - motivation as an effective solution to great time - consuming tasks. 8. Solution of small unpleasant tasks. A way to solve small unpleasant cases. Control over the execution of by the help of "daily affairs tables" Topic 7. Corporate time management 1. The need for corporate introduction of time management 3. Time Management in the Corporate Time Management 3. Time Management in the Corporate University Program 4. Corporate TM Standard TM regulations and command arrangements. Planning rules in diary. "Things" as carriers of corporate standards Topic 8. Computerization of time management 1. Flexible and rigid planning in MS Outlook. Setting up the calendar display with the task panel. Thin ways of installing reminders. 2. Placement of priorities. 3. Setting up a submission user. Auto formatting rules. Autoformat 4. Convenient grouping of tasks of creation of categories. Setting up the group of the submission user. Identification of personal "Kairos" and creation of a system of categories. Setting up the method "day - week".	
3. Rules for organizing an effective rest. Rules of effective rest of the experience. 4. Effective sleep. 5. How to adjust yourself to solving problems: methods and methods of self -launch. Steps to set an "anchor" 6. Creative laziness. Rules of creative laziness 7. Self -motivation as an effective solution to great time - consuming tasks. 8. Solution of small unpleasant tasks. A way to solve small unpleasant cases. Control over the execution of by the help of "daily affairs tables" Topic 7. Corporate time management 4 1. The need for corporate introduction of time management 2. Prerequisites and Definition of Corporate Time Management 3. Time Management in the Corporate University Program 4. Corporate TM Standard TM regulations and command arrangements. Planning rules in diary. "Things" as carriers of corporate standards Topic 8. Computerization of time management 1. Flexible and rigid planning in MS Outlook. Setting up the calendar display with the task panel. Thin ways of installing reminders. 2. Placement of priorities. 3. Setting up a submission user. Auto formatting rules. Autoformat 4. Convenient grouping of tasks of creation of categories. Setting up be group of the submission user. Identification of personal "Kairos" and creation of a system of categories.<

4. TEACHING AND LEARNING METHODS

MLOs	Teaching methods (directed study)	Hours	Learning methods (self-directed study)	Hours
MLO 1	Teaching lecture material. Discussion Work in practical classes	7	Elaboration of lectures. Studying the material for independent mastery. Performing tasks the implementation of which was started in a practical session	13
MLO 2	Teaching lecture material. Showing examples of problem solving at lectures Discussion Brainstorming Work in practical classes Consultations	7	Elaboration of lectures. Studying the material for independent mastery. The implementation of the tasks, the implementation of which was started in the practical session	11
MLO 3	Teaching lecture material. Discussion Work in practical classes	7	Elaboration of lectures. Studying the material for independent mastery. Performing tasks the implementation of which was started in a practical session	11
MLO 4	Teaching lecture material. Work in practical classes Consultations	7	Elaboration of lectures. Studying the material for independent mastery. Execution of tasks, the implementation of which has been started in a practical session	11
MLO 5	Teaching lecture material. Showing examples of problem solving in lectures and practical classes. Discussion Work in practical classes Consultations	8	Elaboration of lectures. Studying the material for independent mastery. The implementation of the tasks, the implementation of which was started in the practical session	11
MLO 6	Teaching lecture material. Work in practical classes	8	Elaboration of lectures. Studying the material for independent mastery. The implementation of the tasks, the implementation of which was started in the practical session	11
MLO 7	Teaching lecture material. Show examples solving tasks in lectures and practical classes. Work in practical classes Consultations	8	Elaboration of lectures. Studying material for self-mastery. The implementation of tasks, the implementation of which was started in the practical session.	11
MLO 8	Teaching lecture material. Showing examples of problem solving in lectures and practical classes. Discussion Work in practical classes Consultations	8	Elaboration of lectures. Studying the material for independent mastery. The implementation of the tasks, the implementation of which was started in the practical session	11

5. ASSESSMENT

5.1. Summative assessment

5.1.1. Intended learning outcomes methods:

No	Summative assessment methods	Grades	Deadline
1.	Defense of practicals work	35	4,6, 8, 10, week
2.	Survey / Testing on processed topics (multiple choice test)	30	2, 10, 12,14 week
3.	Attestation (multiple choice test)	15	according to the schedule of the educational process
4.	Development of a glider layout	20	16-18week

5.1.2 Grading criteria

Summative	Unsatisfactory	Satisfactory	Good	Excellent
assessment method Defense of	<18 Grades	18-23 Grades	24-30	31-35 Grades
practicals work		10 20 010005	Grades	
-				
	Task not	Most requirements	All	All requirements of the
	completed	are met, but some	requirements	task are fulfilled,
		components are	of the task are	creativity,
		missing or	fulfilled	thoughtfulness is
		insufficiently		shown, own solution of
		disclosed, there is no		a problem is offered
		analysis of other		
		approaches to the		
	22 G 1	issue	26 20 G 1	20.0 1
Survey / Testing on processed	<22 Grades	23-25 Grades	26-28 Grades	30 Grades
topics (multiple	<60%	60-74 %	75-89 %	90-100 %
choice test)	correct answers	correct answers	correct	correct answers
			answers	
Attestation (multiple choice	<7 Grades	7-10 Grades	10-13 Grades	15 Grades
test)	<60%	60-74 %	75-89 %	90-100 %
	correct answers	correct answers	correct	correct answers
			answers	
Development of	<12 Grades	12-15 Grades	15-18	20 Grades
a glider layout			Grades	
	Task not	Most requirements	All	All requirements of
	completed	are met, but some components are	requirement s of the task	the task are fulfilled, creativity,
		missing or	are fulfilled	thoughtfulness is
		insufficiently	are fullined	shown, own solution
		disclosed, there is		of a problem is offered
		no analysis of other		*
		approaches to the		
		issue		

5.2. Formative assessment

Formative exercises are designed to enable students to develop particular aspects of their learning, prior to summative assessments. Formative exercises are designed to help students use feedback and self-reflection to manage and develop their learning so that they can see how to improve their work.

N⁰	Formative Assessment elements	Date
	Passing the certification test and module control with	according to the schedule of the
1	feedback from the teacher	educational process
	Verbal feedback from the teacher during classes	during classes
2		
	Consultations, verbal feedback from the teacher	during classes
3	during work on the layout of the glider	
4	Written survey / testing for studied topics (multiple	4,6, 8 week
4	choice test)	
	Written feedback on the developed layout of the	Within 2 weeks after assembly
5	glider
